IGL08B Well Lights

72" wire lead

IP65

MR16 Fixture

DIMENSIONS

A highly versatile In-Ground fixture in our IGL series, this small MR16 well light can be used in garden settings along with paver and hard scape installations. This well light comes with a spring loaded socket, allowing the Lotus MR16 to press firmly against the glass which offers a more significant beam spread. The fully gasketted stainless steel body and decorative brass ring allows this mini well light to match the landscape lighting design esthetic.
